Docket No. RM2012-2

UNITED STATES POSTAL SERVICE NOTICE OF FILING  
OF ERRATA TO ATTACHMENT TO PETITION  
(February 6, 2012)

The United States Postal Service provides notice of errors in an attachment that was included with the Postal Service's Petition on November 30, 2011 and subsequently revised on December 9, 2011. Specifically, the Postal Service would like to correct errors in the Proposal Eighteen attachment Prop18PERFlatsRevised.xls.

Within the file, in worksheets "5D" and "FSS," in cells in rows 193 and 194 of columns K, W, AI, and AU, the formulas were originally divided by cell G6 (a check sum to insure that the proper number of pieces flow into and out of the model). In the revised version filed today, the formulas are now divided by 10,000, which is the number of pieces that flow into each of the four segments of the model (BC/M, NBC/M, BC/NM, and NBC/NM).

The Postal Service is filing a revised attachment, Prop18PERFlats020612.xls, to replace the original. The impact of this error correction can be seen in the 'Summary' worksheet across multiple cost cells. No toggle switch is necessary as this is an error correction.

Respectfully submitted,

UNITED STATES POSTAL SERVICE
